

Allergen Der p 2 Antibody, Mouse Polyclonal Ab

Cat #: SL-PAb002

GENERAL INFORMATION

Immunogen:	Der p 2 Allergen Recombinant Protein(GenBank: AAF86462.1)
Specificity:	<i>Dermatophagoides pteronyssinus</i>
Antibody Type:	Mouse Polyclonal Ab
Formulation:	PBS buffer with 1% BSA
Storage:	Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative Free. Avoid repeated freeze-thaw cycles.

APPLICATIONS

Applications:	Elisa、WB (for research use only and not for use in diagnostic or therapeutic procedures)
----------------------	--

RECOMMENDED CONCENTRATION

Elisa & WB:	1:1000 ~ 1:5000
-------------	-----------------

Western blot analysis of Der p 2 recombinant protein using different loading amounts. The results are shown in the figure below.
